D8

Professional Espresso Machines

D8 comes in two versions: Standard and **PRO** — designed to meet every need, from essential functionality to advanced performance.

D8 | **D8 PRO** | D8 ONE

D8

The D8 is a modular platform of professional espresso machines, featuring a single boiler configuration that can be tailored to the various needs and requirements of baristas and roasters.

- Digital shot timer
- Stainless steel boiler
- Up to 7 programmable doses
- Programmable boiler temperature
- Cold touch steam wands
- Lighting: front panel illumination
- Adjustable temperature for all groupheads, separate to boiler temperature

COLORS

Total Black · Total White

OPTIONAL

IoT / App

D8 PRO PRO

The D8 Pro is a specific configuration of the platform with aesthetic & technological components that enhance the level of performance compared to the base model.

- Digital shot timer
- Stainless steel boiler
- Up to 7 programmable doses
- Programmable boiler temperature
- Cold touch steam wands
- Lighting: front & side panel illumination
- **Individually adjustable temperature for each grouphead, separate to boiler temperature**
- **Automatic steaming**
- **Side leather**
- **Hot water economizer**
- **Insulated boiler & weekly programming software (ECO)**

COLORS

Black Bronze · White Champagne

OPTIONAL

IoT / App

D8 ONE

A high-performance single-group machine designed for environments with lower volumes, where extraction quality remains the top priority.

D8 One inherits the technology, reliability, design and philosophy of the modular D8 platform, offering the same performance, customization options and exceptional extraction quality.

D8 ONE: features

- Digital shot timer
- Stainless steel boiler
- Up to 7 programmable doses
- Programmable boiler temperature
- Cold touch steam wands
- Lighting: front & side panel illumination

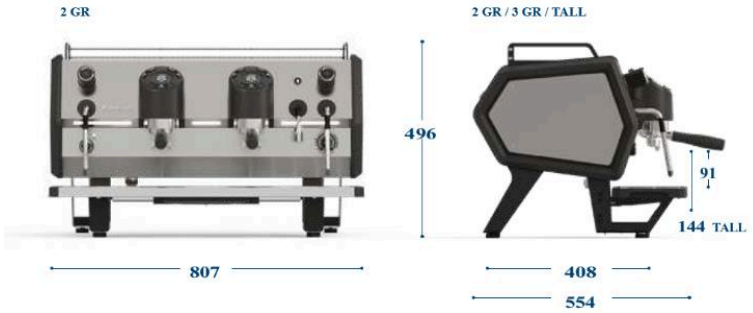

- **Adjustable grouphead temperature, separate to boiler temperature**
- **Side leather**
- **Hot water economizer**
- **Insulated boiler & weekly programming software (ECO)**
